Student won’t write words they don’t know how to spell:

- use a ‘have a go’ pad
- give small clues
- don’t focus on spelling during draft writing, emphasise ideas
- praise all attempts
- tick parts of word that are correct
- refer to page 68 ‘What to do if …’

In the Language program not every writing task will be required to go through the entire writing process. On most occasions a first draft only will be required.
