SCIENCE EXPERIMENT TABLES & WORKSHEET

EXPERIMENT NAME:	Strange Matter
-------------------------	-----------------------

I PREDICT THAT:	When I try putting my finger into it, my finger will go inside the goop and when I slap it with the heavy spoon it will do the same thing. I think when I stretch it slowly it wont snap and when I stretch it faster it might snap. I don't think I will be able to cut it because I think that it will go solid.
